THE ULTIMATE EXTERIOR LIGHTING SOLUTION.

Over 16 Million Colors,
more than your average string of
lights! Set them to any color in the
rainbow, including warm white.

Adjust Brightness Control,
and other aspects, including density
and speed of transitions, allowing
access to a plethora of moving
patterns that creates the ultimate
effect for any occasion.

Cloud Connected,
Gives you the freedom to control
your lighting system from
anywhere in the world.

PERMANENT, SMART, FULLY CUSTOMIZABLE LED LIGHTS.

Celebright installs a 20mm Smart LED light into an aluminum track that is color-matched to your home's existing architecture. On most homes, the track slides under the fascia and hides beneath the roofline on the soffit.

ACTUAL PIXEL SIZE
20MM | .78"

PIXEL DESIGN:

Where engineering meets beauty.

Celebright is proud to offer a system that is designed with the planet in mind and offers features that stand out from the competition. Our custom bulbs are 20mm in size, and each pixel features one point of light, encased in a frosted shell, creating a soft diffused look that is virtually invisible by day. The Celebright system uses about the same amount of electricity as a 40w light bulb and uses RGBW LEDs with a dedicated white LED, offering warmer whites in an energy-efficient way.

TOTAL CONTROL MADE SIMPLE.

Patterns, scheduling, and individual control over each led are all easily achieved in our intuitive simple-to-use app. With cloud connectivity, you're able to access your system from anywhere via smart integration with Amazon Alexa and Hey Google.

Download pre-built presets from our community preset library. Feel like sharing? Modify an existing preset or create a new one from scratch and share it with the Celebright community for all to enjoy.

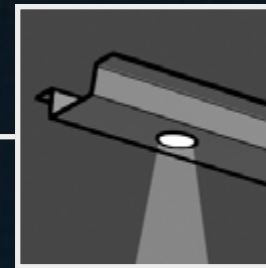

**INVISIBLE BY DAY,
BRILLIANT BY NIGHT.**

SMART INTEGRATION

"Alexa, turn on Celebright."

Celebright's Smart Integration offers a host of features that easily connect with Google Home and Amazon Alexa. Users can now control light settings, adjust color schemes, and schedule automated lighting routines through simple voice commands.

Our lighting system also integrates seamlessly into existing smart home ecosystems, allowing users to manage not just their Celebright devices but also other compatible devices with a unified voice control experience.

“Best product I ever bought. So nice that with the touch of a button I can change my lights to whatever I want, from potlights that stay on all night to Christmas lights and I also don’t have to climb a ladder.”

Cindy, Instagram

NOT JUST HOLIDAYS.

Our lights go beyond simple decorations and play a key role in transforming your outdoor space. Break free from everyday lighting and experience stunning outdoor illumination.

"We are so happy with our decision to go with permanent lights from Celebright Inc. They are well worth it. As for the day of installation, the installers were fantastic! They were able to answer any questions we had...we would definitely recommend getting this service!"

ABOUT US

Celebright began in a garage, as many good founding stories do, in a suburb of Canada's capital, Ottawa. In the fall of 2017, founder Dan Junkins set about stopping his bi-annual trip up the ladder to put up and take down his Christmas lights after his wife requested "more lights this year". Having a background in both computer and hardware engineering, Dan was uniquely suited for the task. Adapting proven technology used in jumbotron pixels, he created a high-quality permanent holiday lighting system that he and his family would love on their home.

When neighbors started asking where they could buy this system, it became clear that permanent holiday lighting was a new and exciting concept that people wanted for their homes. Enlisting the help of some very talented friends, Dan began working full time and Celebright was created.

Now, over 5 years later, those talented friends form the core of Celebright's leadership team, bringing with them decades of expertise and experience. In 2023, Celebright moved into a new 15,000² ft facility to meet growing demand, and has a footprint spanning most of Canada and the United States. Having been a "people first" business since the beginning, we're extremely proud of the team we've built and how many lives we've been able to touch carrying out our mission of bringing joy through light!

CELEBRIGHT CORE VALUES

Take Care of Each Other

Treat our team, partners and customers the way you would want to be treated. Lead with kindness. Support with integrity.

Keep Innovating

Constantly improve products and processes. Take initiative and try new things. Embrace mistakes as opportunities to learn and grow.

Be Responsible

to our customers by making safe and reliable products. to ourselves by prioritizing safety in the workplace. to the planet by making green products.

Customer's Success is our Success

Support the success of our dealers, our team, and end users. We are all stronger when we work together. When any of us succeeds, we all benefit.

THAT CLASSIC LOOK

The holiday tradition is here to stay. Give your house that classic look with the C9 preset. We made sure to even twinkle it for you!

FAQ's

How much does it cost?

The primary driver of cost is how many linear feet of lighting is being installed. Each house is unique, so there's no blanket answer for this. Estimates are free, and often we can get all the measurements we need from google maps. This means we can usually get an estimate back to you quickly!

How long does installation take?

Installation depends on the size and complexity of the job, but generally, an installation can be completed in a single day.

Are your products certified?

Yes, all our products are certified for use anywhere in Canada and the United States. Our certification is ETL listed and conforms to UL Standard UL2108 and CSA Standard C22.2# 250.2. Our ETL Listing number is 5023546.

What is the warranty like?

The warranty is excellent! All of our products and installs come with a comprehensive, five-year warranty on all parts and three-year on labor.

How long will the system last?

Our lights are rated for 50,000 hours of use. That works out to over 20 years of using them every day for an average of 7 hours a night!

Is it waterproof?

Our lights are rated to IP68, they are fully waterproof and rated for use down to -40C.

Can the bulbs be replaced?

Yes. Replacements can be purchased through Celebright and replaced by either our team or the homeowner.

Can you add to the system?

We have designed our lighting system in a modular way, you can add on to your system and control it along with the rest of your lights like nothing changed.
